# A letter from our Pastor

An Extraordinary Parish for Ordinary People

Dear Friends in Christ,

One of the things I love most is going out for dinner or coffee with parishioners or friends and talking about my favorite topic of conversation, (after churchy things, of course) books! I'm a big fan of English history, and Mark Bence-Jones' *The Catholic Families*, published in 1992, is one of the most fascinating things I have read in a long time. Remember that, after the accession of Queen Elizabeth to the throne of the land which was once known as Mary's Dowry, it was so Catholic, the public practice of our faith was illegal until the first Catholic Relief Act of 1778. There were families who remained loyal to the Pope, called *recusants*, because they "recused" themselves from participating in Anglican worship. With the Relief Act, they could finally participate in some way in public life, but to this day Catholics in England were considered to be foreign, not truly English enough to be considered patriots. Their story is fascinating!

In the 19th century, small groups of Anglicans under the influence of the Oxford Movement began to recover aspects of Catholic tradition that had been lost in the English Reformation. This movement, called Anglo-Catholicism, often looked to the Middle Ages as a pristine period of time before the Protestant revolution, and tried to reinvent those practices from before the 16th century. A spin-off of the movement was called Anglo-Papalism, which imitated continental Baroque piety and liturgical practice. Some of those Anglo-Catholics have come back into union with Rome, either as regular ordinary Catholics, or under the auspices of the personal ordinariates set up by Pope Benedict XVI in 2009 to reconcile them to the Church. Some of these Catholics like to think of themselves as "English Catholics" because they have appropriated Anglican patrimony into the Roman Rite through an approved liturgical and canonical structure.

But Catholics continued to live in England throughout the period of recusancy and beyond, and have developed their own culture, not unlike Spanish or Italian or Portuguese Catholicism. As Catholics who could not profess their faith openly, they often preferred the simplicity of the domestic church, understated and not given to emotional display. Truly English Catholicism is profoundly Roman in sentiment, but also quiet, noble and beautiful. It was not until this year that the first Catholic church in England dedicated to the Blessed Sacrament after the Reformation, Corpus Christi Maiden Lane, was erected as a shrine to the Blessed Sacrament, and it is in the middle of high rise buildings and so unassuming it's easy to miss it.

As Catholics in the United States, we may not have the same legal or cultural handicaps that our English coreligionists had historically, but there are lots of subtle pressures against us, in the workplace and in the public square, to not be "too Catholic." We can be tempted to compromise in places like the voting booth, the bedroom or participating in the political process because we are afraid. Prudence is obviously important, and we need to be smart about it, but our country needs the voice of authentically formed Catholics now more than ever. Maybe studying how our English Catholic forebears managed to keep the faith against overwhelming odds – from the glorious martyrs to recusant families – can spark in us the activity of a creative minority once again.

## olivewood hand carvings

On the weekend of 17-18 November, we will host a vendor selling beautiful Olivewood hand carvings from Bethlehem. These carvings are made by Christians of Bethlehem who rely on sales as their source of income. Due to the volatile situation and hardships of their home country, Christians in the Holy Land used to be more than 30% of the population, but are now fewer than 1.5%. By sending the proceeds back to the craftsmen's families, this solution has allowed Christian families to remain in their homeland and work at their traditional crafts. The money flowing back to the families has allowed them to maintain a stable way of life and allowed them to work at what they know best.
